

Manufacturing Innovation Award:
Technological Advancement and
Sustainable Operations

Company Name:

1. Ecological Commitment and Business Performance (50 points)

Please provide details of the environmental stewardship initiatives your company/organisation undertook in the last three (3) years (2021 – 2023). For each initiative, please include a brief description, the duration of the project, the key activities implemented and the quantifiable impact on the environment and business performance. **(Maximum of 2,000 words)**

Eg. Initiative: / Description of the Initiative: / Duration of the Initiative: / Key Activities Implemented: / Measurable outcomes:

2. Innovation and Creativity (50 points)

Describe your innovative and creative approaches in developing and implementing manufacturing processes, systems or products that have led to breakthroughs, advancements in the industry or novel solutions to challenges. (Eg. Cutting-edge machinery, automation systems, software tools or digital solutions that drive efficiency, productivity, quality or sustainability in the manufacturing industry.) Provide specific examples of how your approaches have resulted in tangible improvements, such as increased efficiency, cost savings, enhanced product quality or reduced environmental impact. **(Maximum of 1,000 words)**

About the company: (Maximum of 300 words)
