

Tech For A Sustainable Future Award

Company Name:

1. Innovative Technological Solutions (25 points)

Demonstrate the use of technology to tackle environmental challenges and drive circularity, fostering a closed-loop system where materials are creatively and effectively recycled, reused or repurposed to limit the use of new resources and cut down on waste generation. Activities in 2024 must be demonstrated for consideration in this award category.

(Maximum of 1,500 words)

2. Scalability and Sustainability (25 points)

Showcase potential for widespread adoption and long-term viability of the technology solution in creating positive change.

(Maximum of 1,500 words)

3. Measurable Impact (50 points)

Provide documented proof of the positive outcomes resulting from the technological innovation.

(Maximum of 1,500 words)
